President Donald Trump
Whitehouse, 1600 Pennsylvania Ave NW
Washington, D.C. 20500

Dear President Trump,

As someone who stood out on street during the campaign as a supporter, I want to say that while some may be disappointed that you haven't fulfilled your most critical campaign promises I believe that it is not too late to do so. I know that opposing the globalists can be dangerous to your health, but in times like these we need courageous leadership.
So, here is what I recommend you do:
WRT Ukraine:

1. Announce that now is the time to end the Ukraine war, before any more damage is done.
2. Announce that you are suspending all weapons sales for Ukraine effective immediately,
3. Pull all U.S. forces out of the country (including intelligence agents).
4. Stop supplying targeting intelligence to the Ukrainian forces
5. Endorse the idea of a comprehensive security arraignment in Europe, including the Russians.
6. Continue the reproachment with the Russian you began in Anchorage.

With respect to Iran:

1. Apologize for that nasty sneak attack on February 28,
2. Demand that Iran accept U.S. reconstruction funding.
3. Pay reparation to the civilians that were killed during the war,
4. Ask Iran to recognize Israel's right to exist within its internationally recognized borders,
5. Demand that Iran stop calling the United States the "great Satan".
6. Offer to assist Iran construct modern nuclear power stations.
7. Stop attacking oil tankers in the Gulf, since this is going to lead to a massive environmental crisis from oil spills.

With respect to Epstein:

1. Release all the files, unredacted.
2. Have the FBI and DOJ conduct honest investigations and prosecute those people for whom a credible case exists.

3. Do a real investigation of the death of Jeffry Epstein and determine for whom he was working.

Other Matters:

1. Reign in the H1B visas, they are killing U.S. workers.
2. If you want to impose tariffs tie them to reduced income taxes,
3. Require all the agencies of the U.S. government, including the DOD, to submit audited financial statements on an annual basis or lose funding.
4. Make the development of molten salt, Thorium breeder reactors a high priority,
5. Legalize the use of gold and silver species for payment of taxes and issue a gold backed dollar that is fully redeemable in gold,
6. Bring the department of government efficiency (DOGE) back.
7. Require that AIPAC be registered as a foreign agent.

Thank you for your attention to these matters.

Sincerely,

William B. DeOreo
